Re; Woodthorpe Wright Associates FZ LLC

In the fall of 2009 Hilti entered a selection process for suitable external coaches to support a new internal talent development program to be run in Dubai.

The Hilti organization required two coaches to observe, give feedback and coaching during an intense business simulation made up of fifteen pre-identified young talents from various countries within the Middle East region.

In the selection phase I was particularly impressed with Woodthorpe Wright Associate's (Nic Woodthorpe Wright) ability to listen and understand the core objectives of our development program and the flexibility that was demonstrated.

The development session took place in February, 2010 and was a complete success. Much of the outstanding result was down to Woodthorpe Wright's observation, accurate appraisal of people and the follow-up coaching discussions. In a very short period of time they were able to demonstrate an understanding of our business and people and then helped take individuals forward on the development curve. The participant feedback was also some of the most positive that we have experienced when using external coaches in similar scenarios.

Subsequent to the results of the initial experience we have booked Woodthorpe Wright Associates for further Executive Coaching activities in the region. Some of that future work will include working with senior management teams.

I would recommend the services of Woodthorpe Wright Associates FZ LLC without hesitation.
