To Whom It May Concern:

Re: Woodthorpe-Wright Associates FZ LLC

I first met Nic Woodthorpe-Wright at a business networking event in 2007. At Nakheel, we have been dealing with Nic since January 2008.

Nic initially put together a strategically focused teambuilding event for our business. We were most impressed with the well-thought through programme and the objectives we needed to achieve were put together in a concise, clear and culturally appropriate manner. We most certainly recommend using Nic's strategic and business minded focus for teambuilding events.

Nic is also currently coaching four of our UAE Nationals as part of our UAE National Development programme. We specifically chose to work with him because of his understanding of the UAE market and cultures.

Nic is exceptionally professional, resourceful and by far the most qualified and experienced Executive Coach in this region. I have no hesitation in recommending his professional services; in fact, it would be a loss to any business, not to work with him.

Yours truly,

Amanda Nel
