Re; Woodthorpe Wright Associates FZ LLC

Following a successful participation in the Dubai Holding Leader Development Program where a critical part of the program was to work with a executive coach, my organisation as well as myself have seen the fantastic benefits of working with a professional coaching organisation, namely Woodthorpe Wright Associates FZ LLC.

There is no question of the value that my Woodthorpe Wright Associate coach has delivered to me personally and as well as directly to the business. With the increased pressure and demand of today's business environments my coach has consistently helped me to tap into my natural abilities and stay focused to deliver results and outcomes that have assisted my senior promotion and standing within my organisation.

I fully recommend the use of an executive coach to anyone in senior management who is serious about creating the maximum impact and with that I would recommend Woodthorpe Wright Associates as the regional experts in this field
